Sacramento, CA 95814

Dear Council Members:

Subject: Invitation for Items to be Included in Interim Delta Plan

Reclamation District No. 830 (RD 830) is responsible for the operation and maintenance of the levees on Jersey Island, Contra Costa County. We have worked closely with the Department of Water Resources Subventions and Special Projects programs for the past ten years.

We have also been consistently attending the Delta Protection Commission meetings since its inception. RD 830 commented on the Land Use and Resource Management Plan in 1995 and we were also involved in the recent revision to the Management Plan in February 2010.

The Land Use and Resource Management Plan for the Primary Zone of the Delta identifies the values and trends that have the potential to influence the protection, preservation and enhancement of the valuable resources of the Delta. It is important that the Management Plan serve as a basis for developing an interim as well as a final Delta Plan.

Please add Reclamation District No. 830 to the mailing/notification list (email, nunn@isd.us.com) for all publications and meetings related to the preparation of the two Plans. It would be my pleasure to answer any questions you may have regarding RD 830 or Jersey Island and I would also host a tour of Jersey Island.

Sincerely,

Dennis Nunn
Trustee / Treasurer
